# Virtual Drive: Document Manager

Search, process and analysis of high-volume data in real time with the Mototech Group Big Data platform.

### The Business

GoMusic is a regional company dedicated to real time streaming of concerts, shows and presentations through tablets, mobile phones, desktop, console, smart TV, and VRin full VIVO, VOD in HD quality and 360 audioplayback. Watch, enjoy and share your music, where you want, how you want and when you want. A multi-screen platform that provides high definition streaming service to multiple screens for the distribution of content.

### The Problem

The platform had been developed with a weak technology limiting the users that could connect at once. Adding to that problem were limits brought by the telecommunication companies, meaning a great loss in both video and audio quality while using poor bandwidth channels.

### The Solution

The solution to the problem came with the development of a new platform that enabled a substantial increase in the number of users with no restriction amount. At the same an even greater compression level in audio and video was achieved, ensuring the highest quality delivered no matter the internet service issues.

### **Benefits**

The Mototech Group app was an instant success, allowing for an unlimited increment in users and the upload of all the content from the new content partners (Sony music, Warner music, Universal and Virgin) and also new distribution partners (Movistar, Personal and Tigo.)
